Release Notes

Enhancements

1 Enhancement – Activity Log Dashboard

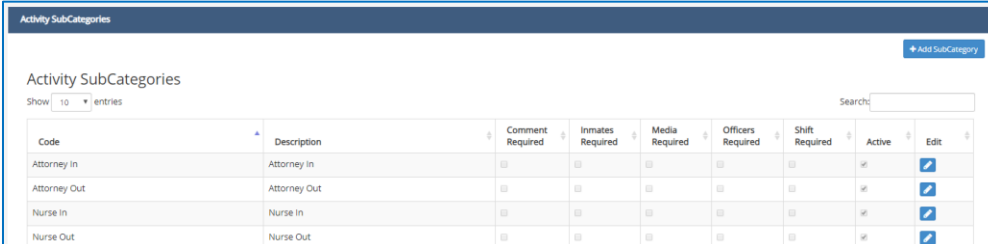

CorreTrak Web now includes an Activity Log Dashboard to view activities being performed throughout the facility. The datatable can be filtered by location, activity and additional filters. Comments can be viewed by hovering over the comment icon. Officers and inmates involved, as well as media, can be viewed by selecting their corresponding hyperlinks.

2 Enhancement – Activity Log Category and Subcategory Code Tables

To support the new Activity Log module, a code table has been added to the Administration | Code Table page to manage Activity Log category and subcategory codes. Activity Log subcategory codes can be flagged to require the user to enter certain fields in CorreTrak Mobile. If the field is required, it will appear as red, and the user will not be able to submit the Activity Log until they populate the corresponding required field(s).

3 Enhancement – Incident Report Dashboard

CorreTrak Web now includes an Incident Report Dashboard to view details of incidents being reported throughout the facility. The datatable can be filtered by location, activity and additional filters. Incident Details can be viewed by hovering over the comment icon. Officers and inmates involved, as well as media, can be viewed by selecting their corresponding hyperlinks.

5 Enhancement – Service Delivery Dashboard Revamp to Display Receipts

The Service Delivery Dashboard has been enhanced to display items that are delivered and also require them to be received. If an item is delivered that requires receipt, a blue alert icon will display in the Outstanding column. Once the officer receives the item from the inmate, the blue alert icon will disappear and there will be a Received time stamp. The dashboard can be filtered by Housing Unit, Item and Status.

6 Enhancement – Service Delivery - Configure Items to Require Receipt and Declare a Max Allowed for Service Deliveries

Service Delivery Subcategories can be modified to require receipt. If the item requires receipt, upon delivering the item to an inmate, the item will need to be received from the inmate in the Receive submodule of Service Delivery.

A Max Allowed value can be set per Service Delivery subcategory item to declare the maximum number of items that can be delivered to an inmate when the item also requires receipt. When this is set, a message preventing delivery will display in CorreTrak Mobile if an officer attempts to deliver more items than the max allowed value.

Code	Description	Signature Required	Receipt Required	Max Allowed
Razor	Razor	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	2

7 Enhancement – Programs Dashboard

CorreTrak Web now includes a Programs Dashboard to view inmate program attendance throughout the facility. If a program requires a location selection, the location will also display on the dashboard. The datatable can be filtered by location and program.

9 Enhancement – Program Schedule

On the Administration page, a Program Schedule link now displays. Program Schedules can be added for existing Programs. The user can select the start and end date, time and declare whether the program requires a location selection in CorreTrak Mobile. The user must select the day(s) of the week the program will be occurring. Selecting “Save” will generate a program for all of the selected days within the start and end date for the entered time. Programs will display in CorreTrak Mobile for the associated days and time that were entered.

Note: Once a program schedule is added, it cannot be modified or deleted at this time.
